ENTREPRENEURSHIP AND FINANCE CELL

"Financial freedom is available to those who learn about it and work on it"

THE INTRODUCTION

An entrepreneurship and finance cell in school can offer a wide range of activities for its members. Here are some possible activities:

Guest Speaker Series: Invite successful entrepreneurs, business leaders, and financial experts to speak to the members about their experiences and offer advice.

Business Plan Competition: Hold a competition where club members can pitch their business ideas and receive feedback from their peers.

Investment Challenge: Organize a virtual stock market investment challenge where club members can practice investing in real stocks and track their performance over time.

Workshops and Seminars: Conduct workshops and seminars on various topics such as financial planning, marketing, sales, and accounting.

Networking Events: Host networking events where club members can connect with other entrepreneurs, investors, and professionals in the business and finance fields.

Company Visits: Plan visits to local businesses or startups to gain insights into their operations and learn about their entrepreneurial journeys.

GMIS Bank Model:

A Revolutionary Approach to Banking

GMIS Bank Model is a new approach to banking that has been taking the financial world by storm. It is a unique model that allows students to demonstrate how to open bank accounts easily, deposit cash, and manage their finances without any hassle.

Opening a bank account with GMIS Bank Model is simple and straightforward. All you need is a valid ID proof and you're good to go. Once you have these documents, you can visit GMIS Bank Model branch and fill out the account opening form or scan QR to open online account. The process is quick and hassle-free, and you can start using your account immediately.

Depositing cash with GMIS Bank Model is also easy. You can visit branch and deposit virtual gaurav currency into your account. The bank has a robust cash management system that ensures that your money is safe and secure. You can also deposit cash through the bank's online portal.

GMIS Bank Model is a revolutionary approach to providing knowledge about working of bank that helps students to manage their finances. With its easy account opening process, hassle-free cash deposit system, and user-friendly digital working environment, GMIS Bank Model is the perfect choice for anyone looking to manage their finances efficiently.

GREEN WALL PROJECT:

Collaboration with social service league

Green wall project done in collaboration with social media league and innovation and incubation centre to control the temperature of school campus. The Green wall project in schools is an initiative that involves creating vertical gardens or living walls within the school premises. These walls are covered with various plants and vegetation, offering numerous benefits such as improving air quality, providing a pleasant environment, and promoting ecological awareness among students. They also serve as educational tools to teach students about sustainability, gardening, and the importance of preserving nature.

PITCHING SESSION:

start up and business idea boost

Objective:

The main objective of the pitching session was to provide students with a platform to present their business ideas, receive constructive feedback, and enhance their presentation skills. The event also aimed to promote teamwork, problem-solving, and critical thinking abilities among the participants.

Preparation:

The preparation for the pitching session involved several steps. Initially call for ideas was introduced, and interested students formed teams to work on their business concepts. Mentors, including teachers and local entrepreneurs, were assigned to guide and support the teams throughout the development process. Workshops on presentation skills and business plan development were conducted to equip the participants with the necessary knowledge.

Event Execution:

On the day of the pitching session, each team was given a designated time slot to present their ideas to a panel of judges consisting of teachers, school administrators, and local business leaders. The teams utilized visual aids such as slides and prototypes to enhance their presentations. The pitches were followed by a question-and-answer session, during which the judges provided feedback and asked clarifying questions.

The

FUTURE ASPECTS

1. Expanded Membership: As the word spreads about the benefits of the entrepreneurship club, more students may join, leading to a diverse and dynamic group of members with varied interests and ideas.
2. Alumni Network: The entrepreneurship club can establish connections with former members who have gone on to become successful entrepreneurs. This alumni network can offer mentorship, guest lectures, and internship opportunities, inspiring current students and providing valuable insights.
3. Collaborations with Local Businesses: The club can collaborate with local businesses and startups, creating opportunities for internships, workshops, and real-world projects. Such partnerships would allow students to gain practical experience and understand the workings of the business world.
