## Message from Vice Chairman

I am happy to know that Gaurav Memorial International School is going to publish its Vol. XV School Magazine.

These days, it is seen that students remain in stress which calls upon their performance and health adversely. The main reasons are :-

- ANXIETY AND DEPRESSION – These can be present more and more in class IX and above levels.
- SLEEP DEPRIVATION IN TEENS – This group need the most sleep but society makes them to sleep less. When you add school duties, social life, sports and other extracurricular activities, there is not much space for sleep. Further more teens might get exhausted due to overwork and are not able to get any rest.
- DIS-ORGANISATION / POOR TIME MANAGEMENT ABILITY – These are very important aspects and their mis-management results in the waste of valuable time and energy of the students.
- BULLYING – This is in the students who can not handle their issues and so they take it out on others.
- EXAMINATION AND TEST PHOBIA – Students must develop self confidence, understand the subjects and adopt systematic studies to get rid of this problem.

All these combined can lead to severe medical problems. The parents and school teachers must keep a close watch on their Ward's/Student's behaviour and on noticing any abnormality the actual reason should be sorted out. If necessary, medical advice must be taken without delay.

I hope the magazine will provide interesting material and information to all the readers. I offer my best wishes to all.

## Message from Managing Director

An institution has a life of its own. With age comes wisdom, strength, courage, and resilience. I see our school to have aged in the same fashion with over two decades of excellence.

The school is a product of a history of service to society. As we celebrate 75 years of our country's independence it is also to note how our institution has helped in nation building. Our founder, Mr RPS Katiyar was the pioneer in setting the first industrial town in Uttar Pradesh, today, his apt vision is able to now give livelihood to more than thousand families. His philanthropic endeavours help feed more than 8 villages, along with a charity run school for downtrodden. His contribution to the socio-economic development of the society is unquantifiable. In this context, the school year after year has been contributing to society while our students year after year prove it by making it to the top positions nationally and internationally.

Teachers proceeded to become the top subject experts of the board itself. Exemplary performance in curricular and co-curricular fields and all-rounder school toppers. This shows how we praxis the vision of education that is culminated with thorough research, dedicated ethics and an overarching goal of nation building. I have spent my life teaching, educating and researching in the field of education with governmental and non-governmental bodies, every day as I interact with our alums, students, parents and teachers, I am assured that change is possible and change starts within the classroom, as the spark of curiosity, innovation, knowledge is kindled in the mind of students, who then become the torch bearers of change for a better society.

The school magazine, 'Gaurav' is one such exemplar of our zillion believes and endeavours for the inter-subjective imagination of a better tomorrow. I congratulate the editorial board to have worked day in and day out to have brought this to fruition.

Welcome to the fifteenth volume of our school magazine 'Gaurav'. As the Vice-Principal of the school, I feel honoured and privileged to be a part of an educational institution where every stakeholder is a learner and every day is an opportunity to learn and discover. We look at ourselves as a community of learners, where everyone learns including our teachers, parents & staff.

I believe in upholding high standards with an absolute commitment to strive to understand and to improve the educational process, using team strategies, while completely centering on student achievement. At GMIS in our curriculum the student is the primary focus and each child is involved in the learning process. We are constantly improving our teaching methodology so that it turns learning into combination of classroom study, research and scientific discovery.

We are committed to provide a safe, positive, intellectual learning environment as guides and mentors, we shall ensure that our students would become modest, humble and disciplined as they soar heights in their career and bring laurels not only to their families but also to their motherland.

## From the Editor's Desk

Dear Readers,

On behalf of the Editorial Board, we are pleased to present the fifteenth edition of the school magazine "Gaurav".

Over the last year it has truly been an honor to work with such a passionate group of students. The editorial board and staff editors dedicated a monumental amount of time and energy towards improving the journal, and their tireless efforts have made this year's edition a great success. The magazine is to be viewed as a launch pad for the children's creative urges to blossom naturally. As the saying goes, mind like parachute works best when opened. This humble initiative is to set the budding minds free allowing them to roam free in the realm of imagination and experience to create a world of beauty in words.

The enthusiastic write ups of our young writers are indubitably sufficient to hold the interest and admiration of the readers. This souvenir is indeed a pious attempt to make our budding talents give shape to their creativity and learn the art of being aware because I believe that success depends upon our power to perceive, the power to observe and the power to explore. We are sure that the positive attitude, hard work, sustained efforts and innovative ideas exhibited by our young buddies will surely stir the mind of the readers and take them to the surreal world of unalloyed joy and pleasure.

It gives me immense pleasure to ensure that this magazine has successfully accomplished its objective. The reflection of the students' creativity and achievements is the epitome of the magazine.

I take this opportunity to thank all the dignitaries for sparing their valuable time to send their best wishes for the magazine in the form of 'Messages'. I heartily wish all the readers my best wishes and hope this souvenir will enjoy your critical acclaim and prove itself to play a vital role in the all-round development of the children.

## HEAD BOY'S REPORT

*"Difficult roads often lead to beautiful destinations"*

I am very grateful to almighty and my peers by the virtue of which I am selected as Head Boy of this prestigious institute.

My wonderful years at this prestigious institution, has left an indelible impression on my heart and soul and has shaped my life in many beyond measure. The dedication of our teachers is inevitable which stirs the mind and soul of very student. The positive essence and good vibes of Gaurav Memorial International School certainly has something that no other school has which moulds and build our character to face the world and win. .My fellow Gauravarians, I feel proud to say that we have performed very well as far as academics, sports & co-curricular activities are concerned but these are still opportunities for enhancement. So we need to engage ourselves in working all our weak areas and optimizing our performance.

According to me there are 4 D's for success.

**Desire | Determination | Discipline | Direction**

And we being Gauravarians do not need to worry about being provided the right direction.

To all the Gauravarians, I would say, sincerity and hard work with full dedication always deliver great results. Once you make a clear decision to work hard by casting off all mental limitations and throw your whole heart into the accomplishment of your goals, the success is guaranteed.

I also request the senior students to take all the responsibility of guiding the juniors and motivating them to strive towards excellence.

At the end I urge all students to work hard in their respective areas so that we can soar high and high.

Thank you

**Huzafa Azeem**

## HEAD GIRL'S REPORT

***"The future belongs to those who believe in the beauty of their dreams."***

The first day I set foot in Gaurav Memorial International School, I knew it was different and I would come out with a different persona. Sure enough, I changed and owe my hundred per cent credits to our school.

First off, I never got the chance to truly thank our school management, knowledgeable teachers and all other staff members for maintaining an environment which allows all the students, be it the juniors or the seniors, to grow not just academically but also as a person, as human beings.

Any institution becomes great only when each and every individual becomes a part and puts even the tiniest efforts for its overall development. I would like to thank all the students, house captains, prefects and monitors for realizing their duties and leaving no stone unturned to fulfill them. To you all I owe my greatest thanks.

Academic year 2019-20, was amongst my most successful years. Starting from the loving staff members and teachers to my friendly peers, everything was made as if to enhance my potential.

***"YOU ARE BORN NOT TO SHRINK DOWN TO LESS BUT TO BLOSSOM INTO MORE."***

GMIS provides opportunities to everyone equally and lets everyone flourish their talents and efficiently raise their prospects. With events like English debates, MUNs, Zest programs, concerts and other co-curricular activities talents bloom and children groom.

GMIS provides the best example of learning with fun. We learn lots both theoretically and practically and when we move out to face the real world, we stand with amplified knowledge and a better personality embodied with great moral character.

So, I would like to specially regard everyone for their time, support and trust that they put in all the students and are making us take a step closer towards our goal.

Last but not the least, to all my juniors I would like to say that, school provides enough opportunities for you to get a head start. And remember, it does not matter how slow you go as long as you do not stop.

Signing off

Celebrating the indomitable spirit of motherhood amid the coronavirus-induced lockdown.

Mother's Day is a time held dear by families across the world. Mothers and mother-figures are indispensable. Mothers have been called the glue that holds the family together, although the glue is often underappreciated. Celebrating Mother's Day by acknowledging Mothers not only provides a lift to her spirits, but it is a great way to express love, respect and honour to them.

## THE BENEFITS OF BIOMECHANICS

Sports biomechanics is a subfield within biomechanics and is its own branch of human and biological science. Essentially sport and exercise biomechanics is focused on analysing the physiological mechanics of human movement. This includes analysis of how forces interact and the effects these forces have on and within the body. In other words biomechanics in sports examines and explains why and how the human body moves like it does. In a sport like tennis this also includes the interplay between an athlete, their environment and the equipment.

Generally the primary goals of sports biomechanics are:

- Improve athletic performance by identifying and applying optimal technique.
- Prevent injury and speed up recovery.

Basically, understanding biomechanics and applying it is the foundation for good technique in all sports. So by studying how the human body naturally wants to move we can remove stress and pressure on the bones, joints, muscles and ligaments. This results in improved athletic performance, reduced injuries and heightened general wellbeing. Athletes of all ages and skill levels can benefit from biomechanical analysis whether it's for pain reduction or to increase top level performance. Here are some more benefits of proper biomechanics:

- Increased movement speed (running, swimming, etc.)
- More power (jumping, hitting, lifting, etc.)
- Energy conservation through economy of movement.
- Helps eliminate muscle imbalances.
- Reduces wear and tear on joints and ligaments.
- Improved sport specific form and technique.

In a nutshell, with good biomechanics you can get faster and stronger while reducing injuries.

## कविता - जिंदगी

जब तक चलेगी जिंदगी की सांसे,  
कहीं प्यार कहीं टकराव मिलेगा।  
कहीं बनेंगे संबंध अंतर्मन से तो,  
कहीं आत्मीयता का अभाव मिलेगा।  
कहीं मिलेगी जिंदगी में प्रशंसा तो,  
कहीं नाराजगियों का बहाव मिलेगा।  
कहीं मिलेगी सच्चे मन से दुआ तो,  
कहीं भावनाओं में दुर्भाव मिलेगा।  
तू चलाचल रही अपने कर्मपथ पे,  
जैसा तेरा भाव वैसा प्रभाव मिलेगा।  
रख स्वभाव में शुद्धता का स्पर्श तू,  
अवश्य ही जिंदगी का पड़ाव मिलेगा।

## शिक्षक

जीवन में जो राह दिखाए,  
सही तरह से चलना सिखाए।  
माता-पिता से पहले आता,  
जीवन में सदा आदर पाता।  
सबकी मान प्रतिष्ठा जिससे,  
सीखी कर्तव्यनिष्ठा जिससे।  
कभी रहा ना दूर मैं जिससे,  
वह मेरा पथ प्रदर्शक है।

जो मेरे मन को भाता,  
वह मेरा शिक्षक कहलाता।  
कभी है शांत, कभी है धीर,  
स्वभाव में सदा गंभीर।  
मन में दबी रहे ये इच्छा,  
काश! मैं उस जैसा बन पाता  
जो मेरा शिक्षक कहलाता।

## POEM

We are all buckets,  
awaiting to be filled,  
our insides are hollowed and filtered,  
left empty and alone  
this ravenous gaping hole within us  
creates strong desire to be fulfilled  
we sustain our hungry ears with gossip, thin and unsatisfactory  
we reveal our eyes to never-ending platforms  
of social media that seemingly entertain us  
where we don't have to think at all.  
Our noses smell the most pungent of crudeness;  
putting others down to distract us from how low we feel ourselves  
our mouths, our lips, our tongues taste the palate of lies and redundant letters  
threaded to form words, strung to form sentences that coil within us,  
knitting us into the blanket on shallowness and desolation  
We search the curves and crevices of each other thinking that through touch, we will be able  
to feel something, something more than this black hole that annihilates us.  
It gives us the illusion that we are full, we tell ourselves that we are satiated,  
when really,  
we are all starving corpses, on the edge of death;  
living a life that isn't ours.  
A life that is formulated on the foundation of lies and sorrows.  
A life that we can no longer live.

---

## POEM

To all the dark times  
Let there be light,  
let there be life.  
No matter what happens  
Get up with a smile,  
Look around and admire  
Don't let the darkness  
Take over the control  
Let that glimmer of light  
Enter through that window  
To illuminate your life,  
Conquer your mind  
And say goodbye  
To all the dark times

Mrs. & Mr. Ashok Kumar Pal

---

We, the parents of Anushka Katiyar would like to express our thanks and gratitude to the management and teachers of Gaurav Memorial International School for providing opportunity to our child for her holistic development, to discover innate potential and to make her realise her capabilities. The constant encouragement, assistance and support they have provided to our child is commendable. Our daughter has enormous and exponential growth. The school's contribution to our daughter's transformation has made us extremely happy and appreciative. The school has not only helped her to excel in academics but also in co-curricular activities. Anushka owes the school a debt of gratitude for all her accomplishments.
